***SAFETY
TIPS***

Safety Tips

-  Don't carry a large purse. Use a waist bag or put your money/valuables in a zippered front pocket.
-  Walk with another person to and from the casino.
-  Have keys ready in your hand to enter your car.
-  Consider getting a personal alarm. They can be put on a keychain and emit a loud noise.
-  Carry only necessary items. Bring only what you absolutely need to go to the casino.
-  Protect your player card and pin information. Do not leave your card out.
-  Place your cash coupons in a safe place when you finish playing on a machine.
-  If you use the bank machine, protect your pin number from others. **NO ONE** should be close to you when you are using any bank machines.
-  If you feel unsafe with anyone at the casino, immediately notify the security staff there.
